The Castaway Cottages are the answer.
This is a perfect opportunity to escape from your daily routine and slow your pace by bathing in the sun, air, and sea.

About Us

Castaway Houses Trpanj were built by the Salacan family. They were using genuine materials found around, stone, wood, plants, etc., or in many cases recycled materials like doors and windows, kitchen cabinets, and some furniture. Electrical and plumbing work is completely new as well as all of the related appliances. Furnished with all you need. Outdoor grill, shower, you name it. They built the cottages with great detail and passion.

The houses are easily accessible from the main road, though tucked away to ensure your privacy and peaceful stay surroundings.

There are 5 other beaches within walking distance. The best of all is the famous walking trail of Trpanj.

Built back in the late 19 century it will take you along the seaside to downtown Trpanj.
